Dear Member(s)

**Re: 'Workshop - Can't see the wood for the trees' - Thursday, 9 July at 10am
Blacksmiths Cottage Nursery, Langmere Road, Langmere, Dickleburgh, IP21 4QA**

This year our workshop with Richard Hobbs is going to address the question of tree identification. Amazingly, more tree species can be found growing in Britain than in any comparable area of the temperate world, so working out what they are is not always easy. This workshop is designed to help identify the major groups and to learn about the features that are important in identification. We will look closely at buds, bud scales, lenticels, veins, leaf scars, fruits and flowers. There will be a large selection of trees to look at ranging from the extraordinary Black Jack oak of the Americas to the rare Chinese plum yew. We will include oaks, maples, rowans, dogwoods, pines, spruces and firs among others. There will also be a display of some of the most useful tree identification books.

As usual, numbers will be limited to 12 participants, but a further session will be arranged for the afternoon if demand necessitates this. The cost will be £12 per person and restricted, at least initially, to members only. In order to reserve a place, please use the reply slip below. Alternatively, you can pay by BACS: Account Name: Norfolk Plant Heritage - Account No:44891760 - Sort Code: 30-54-66 - Reference: (Person's name) - RHob **Please email me if you use this method of payment. My email is kathygrayc@gmail.com.** Thank you. In conclusion, I look forward to hearing from you for what promises to be an interesting and informative morning.

With best wishes
Kathy Gray
